

ArtistView 6.6-2 Release Notes

#####

@RELEASE: 6.6-2

#####

==== CL 13007 ====

@FIX:Add max instances field to job modify dialog

==== CL 13003 ====

@NEW:Try to use prettier font for job, frame, etc lists if one is available.

==== CL 12983 ====

@FIX:Even on light refreshes (like auto-refresh), keep track of jobs removed from other interfaces.

==== CL 12955 ====

@FIX:Include libraries for MSVC2010 against which the included qb module is compiled - this should resolve an issue launching ArtistView on some versions of Windows.

==== CL 12907 ====

@FIX:Fix lost frames/instances tab contents when switching between jobs and worker tabs.

==== CL 12886 ====

@FIX:Fixed server-side searches
